

Crimini (Italian Brown) (Agaricus bisporus)

DESCRIPTION / FLAVOR: Crimini mushrooms are similar in appearance to the Whites because they come from the same family (Agaricus). Look for a naturally light tan to rich brown cap and a very firm texture. Deeper, denser, earthier flavor than White mushrooms.

PACK SIZES: Whole and sliced Criminis are generally available in 5 and 10-pound containers.

SHELF LIFE: Whole Criminis should remain fresh for 5-7 days when properly refrigerated. Sliced Criminis must be refrigerated and are best used in 3 to 5 days.
