### CCP: Pre-prep Steps for Safe Food Handling

1. **Sanitation Instructions**: Food prep areas, equipment and utensils to be used in the recipe will be washed and sanitized prior to beginning the preparation and cooking.

2. **Getting Ready**: Assemble all ingredients, utensils, etc. to be used in the recipe within easy reach of the prep area so that food safety can be managed more effectively as well as better control of contamination and cross contamination.

3. **Personal Hygiene**: Wash hands thoroughly before handling food, after handling contaminated food or objects and before switching to another step where there is an opportunity for contamination. This applies as well to before and after glove use.

4. **Beginning Temperatures**: Take and record on a temperature log all beginning temperatures of refrigerated foods before beginning the recipe.

### Preparation Instructions

1. Get the cooking and draining location ready. You need tongs and a strainer big enough to hold all the cooked noodles.
2. Place thawed noodles in a hotel pan deep enough for water to easily cover the noodles by 1 inch.
3. Gently break up noodles with your hands.
4. Cover the noodles with hot water (Hatco Hot Water dispenser)
5. Using tongs, continue to break up the noodles.
6. After ONE MINUTE, drain the noodles.
7. Coat with a tablespoon or less of canola oil. Cannot be done more than 2 hours in advance.
